Skills

Languages: JavaScript, Python, SQL, HTML, CSS

Framework & Library: React Native, Redux, React, Django, TailwindCSS, Bootstrap

Miscellaneous Technology: Git/GitHub, Linux Shell, Neovim

Experience

React Native Developer | Thoughtwin IT Solution

Mar 2025 – Present

- Collaborated on developing and debugging mobile applications using React Native.
- Integrated RESTful APIs and handled data using Axios and React hooks.
- Worked closely with senior developers to learn best practices in mobile development.
- Gained hands-on experience with navigation, state management, and performance optimization.

Backend Developer | Ideal IT Techno

Dec 2024 - Feb 2025

- Implemented a functionality that allows users to upload a CSV file to book workers in bulk for multiple tasks or a single task.
- Developed an endpoint that enables users to update their orders by re-uploading the necessary details instead of deleting and recreating them.
- Resolved a bug where users were not receiving proper error messages when sending notifications.
- Fixed bugs and wrote test cases to improve system reliability.

Front End Developer Intern | Salesqueen Software Solutions

Feb 2023 - Mar 2023

- Resolved a critical bug in an HR management dashboard, correcting issues with inaccurate graph rendering using ReactJS.
- Developed and implemented sub-tabs for employee login/logout records and upcoming leave dates with HTML and Bootstrap.
- Enhanced dashboard functionality by integrating additional features for improved HR management, leveraging ReactJS and Bootstrap for a responsive design.

Education

Shivajirao Kadam Institute Of Technology And Management, Indore

JUNE 2020 - JUNE 2024

B.Tech Computer Science

CGPA: 8.07

Aradhana Higher Secondary School, Neemuch

APR 2019 - APR 2020

Grade - XII

Alpha Higher Secondary School, Neemuch

APR 2016 - APR 2017

Grade - X

Projects

MTP - My Ticket Partner | React Native, Redux, RESTful APIs, JavaScript

- **Mobile Feature Development:** Contributed to the development and debugging of key cross-platform features, including **Task Management** and **Scheduling** views, using **React Native**.
- **Data Synchronization & State:** Supported senior developers in implementing **Redux** for application state and assisted with integrating **RESTful APIs** (Axios) to ensure robust data flow for field personnel task assignments.
- **Quality & Optimization:** Applied core mobile development practices to maintain a responsive user interface and contributed to performance testing efforts to achieve a smooth user experience across devices.

Wasalt – Real Estate Mega Platform | React Native, Redux, TypeScript, JavaScript, REST APIs

- **Large-Scale Mobile Application:** Developed and maintained a high-traffic real estate mobile application serving users across major cities in Saudi Arabia, including **Riyadh, Jeddah, Dammam, and Al-Khobar**.
- **Location & Performance Features:** Implemented **location-based search, map integrations, data caching, and offline support** to improve application performance and user experience.
- **Core Business Modules:** Built and enhanced critical modules such as **property buying/selling, bidding, live electronic auctions, real estate projects, and investment plans**.
- **Map-Based Discovery:** Integrated interactive map-based property discovery with nearby facilities including **schools, hospitals, mosques, and restaurants** to support informed user decisions.
